X-TRAP 50²

Philips UV-A lamps [Fluorescent]

In close partnership with Philips, Alcochem Hygiene using a range of high powered effective UV-A lamps, used for insect trap applications.

The discreet 80 m² insect control unit

With its innovative design, the X-trap 50² is recommended for use in homes, offices, shops and restaurants. The X-trap has a specially designed front grid which optimizes the attraction potential. *Executed with in a Robust metal housing.*

Glue boards

Insects are caught on a glue layer, which preserves them over time. The caught insects can be counted and insect species can be analysed, which offers clear advantages in an IPM approach.

Special covers:

For units installed in front of house situations: To avoid that clients have a direct view on the glueboard, which hold the captured dead insects, two metal inlay parts are centrally placed on the unit. These offer clear aesthetic advantages, as they avoid a distasteful view on this glueboard.

• Highly effective due to front, side, top & bottom access for flying insects
• Unit can be mounted in 4 positions on the wall or on the ceiling
• Compact design, blends into the background
• Proven design offers a trouble free life time of min 5 years
• Unit can take a variety of glue boards, which allows a simple board switch
• CE approved offers sales opportunities around the globe
• Philips electronic ballast offers energy saving & 40.000 hrs
• Unit is HACCP compliant (2x 15 Watt Philips Shatterproof lamps)
• Easy to clean Front of House design & Industrial design

Technical specifications

Electrical supply	220-240 V ~ 50-60 Hz
UV-A lamp	15 Watt Philips shatterproof lamps
Ballast Electronic	Philips 40.000 hrs
Standards	EMC / CE / RoHS / Reach compliant
Dimensions box Indicative	538 x 113 x 311 mm (L x W x H)
Gross weight	4,5 kg
Degree of protection	IP 20
Quality procedure	ISO 9001
Life span	Min. 5 years
Guarantee	2 year return to base
Consumables	Glueboard and 15 watt UV-A lamp
Replacement interval	4x Glueboard & 2x UV-A lamp per year
Appliance cable	3 pole cable of 1,7 m with tailored country plug
Mounting position	Wall mounting in 4 directions or Ceiling mounting
Glue rail	Can hold a range of different sized boards
Environmental aspects	Non applicable
Marketing tools	Leaflet / photo's / banner / presentation
MSDS	Available for lamp and glue board

Upper holes are slot holes for easy horizontal mounting
Lower holes can ensure the reliable vertical mounting and ceiling mounting
Reinforcement ribs to ensure the stiffness of the back board
